Experience

Dec 2021 - Present · Remote
Senior Developer
Visible One

Leading a cross-functional team at Visible One, the role involved **developing and architecting solutions** while providing end-to-end technical oversight—from **Project Analysis**, **task assignment**, **Code Audit**, and **Code Review** to full **Project Management** and **server deployment** of E-Commerce, Portal, and Payment Solutions.

Aug 2019 - Jan 2021 · Yangon
Senior Developer
ITVision Hub

Led a team of 10-15 developers in the full-stack development and deployment of enterprise solutions (including E-Commerce, Job Portals, and IT solutions), while overseeing the technical design and integration of critical financial systems like Payment Solutions and POS.

May 2019 - Jul 2019 · Remote
UI/UX Developer
Wunderfauks

Responsible for the end-to-end UI/UX process, including prototyping, interface design, and delivery of a streamlined user experience using lean design methodologies.

Sep 2018 - Apr 2019 · Yangon
Developer
Property Star - SGCondo

Developed and maintained secure, scalable internal real estate websites to support company operations, collaborating with stakeholders to deliver functional, user-friendly web interfaces.

May 2018 - Aug 2018 · Singapore
Internship Developer
Amicus Data

Engineered and deployed personalized websites for internal agents using custom templates and features, gaining experience across the full development lifecycle.

May 2017 - Apr 2018 · Remote
Junior Developer
Mastery

Developed and implemented a mission-critical web application for mobile operator billing, including robust API services to manage sensitive financial data and external communication.
